GUARANTEED RELIABLE SETTINGS
**for manufacturers for all screens
(vertical screens, lateral arm awnings and valances)**

Sunea 40 Solar io configuration from **the EMS2**

Our configuration tool lets manufacturers set motors with no risk of operator error.
What's more, your easy integration is guaranteed with Sunea 40 Solar io thanks to fast barcode pairing, and no need to remove products from their packaging.

You can customise your motor settings and keep a data record.
